

My whole family listens to K-LOVE and it provides wholesome, character building messages and music. Peoples lives change from listening to K-LOVE; those in dispair find hope and encouragement to rise above their challenges. K-LOVE provides resources to get help and prayer. K-LOVE has positive messages and if the change is made to LPFM service, the loss of K-LOVE would extinguish one of the best tools our country has in promoting honesty, service, kindness and compassion for others. Please give priority to the FM translator service, keeping K-LOVE a positive effect on our community and family.
